

# JUNIT5

## Assertions :-

Expectations vs Actual output (Reality)

if  $\rightarrow$  Expectations == Actual output  $\Rightarrow$  Test case  $\checkmark$

else  $\rightarrow$  Expectations  $\neq$  Actual output  $\Rightarrow$  Test case  $\times$

Assertions  $\Rightarrow$  static methods eg:- `assertEquals (exp, actual)`  
`assertArrayEquals (exp, actual)`  
 $\equiv$

$\rightarrow$  `org.junit.jupiter.Assertions` class

supports features of java 8 (Lambda exp, Stream API) - - -
